

Prevention Services

This program is holistically based, focusing on the mind, body, emotions and spirit.

Programs are offered for individuals, families, and community members at large.

A variety of programs are offered in the evenings for children, youth, adults and Elders in each community.

Local Advisory Committees in each community assist in the planning, prioritizing and carrying out community based activities.

All programs include culturally relevant information and traditional practices.

Elders are key supports in every program we offer.

Cultural ceremonies are incorporated into programs and offered to individuals. Individuals are given a choice to participate in these ceremonies. If they choose to not participate that is okay.

“Our vision is to empower individuals, families and communities to live in a safe and healthy environment.”
